

## Initial Proposals - Constituency Breakdown Tables

The following tables have been produced by the Boundary Commission for England to assist understanding of their Initial Proposals, which are published on 13 September 2011.

Table 1 shows the relationship between each existing constituency and the constituencies in our initial proposals, in terms of the number of electors and the percentage of the electorate of each existing constituency that is included in a constituency in our initial proposals. For example, where that figure is shown as 100%, it means that all of the electorate of the existing constituency is included in a constituency in our initial proposals.

Table 2 shows the relationship between each constituency in our initial proposals and the existing constituencies, in terms of the number of electors and the percentage of the electorate of each constituency in our initial proposals that has come from an existing constituency. For example, where that figure is shown as 100%, it means that all of the electorate of the constituencies in our initial proposals has come from one existing constituency.

If you have any queries about the review, please use the contact details shown at the foot of this page.

**PLEASE NOTE THAT THE DATA IN THESE TABLES IS EMBARGOED UNTIL 00.01 ON 13 SEPTEMBER 2011.**

**Table 1****North West Region: Blackburn with Darwen, Blackpool and Lancashire**

<b>Existing Constituency</b>	<b>Electorate</b>	<b>Initially Proposed Constituency</b>	<b>%</b>
Blackburn BC	72,112	Blackburn BC	100%
